Figure 1

8 set point relay board.

This external board gives to the clamps the relay contacts of the set points and repeats the D-sub pins of the connector C2.

Power suppli : 24 Vdc
 Relay: 5A / 250 V (resistite load)
 Dimensions: 129 x 92 mm²
 Mounting for DIN bar
 Connection: 15 poles cable - 1m

E2-BCD

Figure 2

BCD board.

This external board gives to the clamps the pins of the C2 D-SUB connector. It also allows to connect more than one instrument to the same 8 inputs port of a PLC using 2 outputs for each instrument (see figure 6).
